

BAS-RELIEF ON GATEWAY — HIPPAH FIELD

Farmington's "Hidden" Sculpture (see inside front and inside back covers)

FARMINGTON

Annual Report

Nineteen Hundred and Seventy-one

Farmington's "Hidden"

Sculpture

by Natalie S. Butler

Few people who approach Farmington from U.S. Route 2 realize the Hippach Field gateway, at the right of the highway, is the work of a noted sculptor: Richard W. Bock of Illinois, who often carried out commissions for Louis Sullivan, "The Father of Modern Architecture", and Frank Lloyd Wright, a legend in his own time.

Few Farmington residents realized it either, until recently, when the Post Office received a letter addressed simply to "A Boys' School, Farmington, Maine". It was from a student in Iowa, researching a thesis on Bock. He had come across a description of the gateway bas-reliefs in Bock's journals, and wanted to know if they still existed. And he wanted to know why and how these reliefs, considered some of Bock's best works, happened to grace an athletic-field gate in the little town of Farmington, Maine. After all, Bock had been a very prominent artist.

It has been said of Bock that, during his career as a sculptor, he met or associated with the elite of American sculpture — Bitter, Borglum, Fraser, MacMonnies, MacNeil, and Saint-Gaudens. He worked for some of the finest American architects. He met and portrayed statesmen and labor leaders such as Eugene Debs. Born in Germany and raised in Chicago, he had achieved rapid success — newly returned from study abroad he had been hired straight off by several architects of the Chicago School to work on their projects for the World's Columbian Exposition.

Farmington's 50-year-old records were searched and the story revealed.

Fifty-five years ago the Abbott School of Farmington, or "Little Blue" School, as it was usually called, was enjoying well-deserved popularity. Founded in 1844 by Samuel Abbott (brother of the noted children's author Jacob Abbott), it had achieved international reputation by the turn of the century.

It was in 1914 that Howard Hippach, son of Mr. and Mrs. Louis Hippach of Chicago, graduated from the Abbott School. Howard, a promising young man, was the only survivor of the Hippachs' three sons. His older brothers had burned to death in the Iroquois Theatre fire.

October 14, 1971

Mr. Harold L. Bean
Town Manager
Town Hall
Farmington, Maine 04938

Dear Harold:

We are pleased to announce that the Town of Farmington has been selected to receive an award in the Maine Municipal Association Annual Report Competition for 1971. Effective communication of the programs of any community can be furthered through an annual report. The Town of Farmington and those who worked in preparing the annual report of municipal activities are to be commended for their efforts.

The Annual Report Contest judges base the competition awards on the content, general attractiveness and utility of the report. Supreme, Superior and Excellence Awards are made to communities in nine population categories.

Farmington has been chosen to receive the Superior Award in the 1971 Competition. On behalf of the Maine Municipal Association, it gives me great pleasure to announce this award and to extend our congratulations.

Sincerely yours,

Paris J. Snow

Paris J. Snow, President

Pictured at left is the Certificate awarded to the Town of Farmington by the Maine Municipal Association. This is for towns with a population of 5,001 - 10,000.

Report of TOWN MANAGER

To the Board of Selectmen and Citizens of Farmington

The 1971 Town Report is the 24th under Selectmen-Manager form of government and the 178th since incorporation in 1794.

FIRE DEPARTMENT. The Town appropriated \$1,500.00 to the Equipment Reserve Fund in anticipation of the purchase of a new fire truck within a very few years. The Fund now totals \$6,587.68, which is on deposit in the Franklin County Savings Bank.

STREET LIGHTS. No changes were made in the street lighting during the current year. But a program is to be planned for a complete change over in the next three years to mercury-vapor lighting. The Town has been informed by the power company that the incandescent light fixtures are to be phased out due to lack of replacement parts. The Selectmen have taken the position that the change over will commence on through streets the first year. It is expected that the total additional cost will be \$6,000.00 in addition to the present cost of \$14,000.00. The new lights will be the same type and size that were installed on Water Street, West Farmington in 1968.

A street light survey was made in the Fall of 1967. The plan will be reviewed and updated, with the changes to be made generally in accordance with the plan which determines location and size of light.

SEWERS. 1971 proved to be a landmark year for Farmington as the long planned construction of the Sewage Treatment Plant started. In the early 1950's plans were started to update the Sewer System with eventual construction of a Treatment Plant to remove sewage from polluting Sandy River as it passes through the compact area of the Town.

In 1967 the Town contracted with Edward C. Jordon Co., Portland, to provide engineering services and assist in filing application for Advance Planning Funds. The application for a loan of \$95,800.00 was filed in March 1967. In the Spring of 1968 the application was denied, but was subsequently reinstated. During the Summer of 1968 the loan was approved. The engineering firm immediately commenced surveying. In the Spring of 1969 the engineers turned over to the Town a set of plans for a Treatment Plant, Interceptor Sewer and Collector Sewer. Application was made to State and Federal agencies for Construction funds, the applications being approved in the Spring of 1971. Advertising was placed for bids, with Rathbun Company of Presque Isle submitting the low bid of \$925,000.00 to build the Treatment Plant. Sheppard Brothers of Hallowell was low bidder on the Interceptor Sewer in the amount of \$423,109.00. In the Summer the Collector Project was advertised with Sheppard Brothers as low bidder in the amount of \$773,547.00.

PUBLIC DUMP. In the Spring of 1971 a contract was signed with the Modern Exterminating Company, Augusta, to place rat bait monthly at the dump. Early in November the rodent problem increased which necessitated an extra application which appeared to be effective.

The ban on open burning dumps is effective December 31, 1973. This poses a problem to develop an alternative to the present method. It is apparent that a sanitary land fill will be the alternative. These questions are raised:

Where can a location be found that will be satisfactory?

What will be the cost?

Shall the regional concept approach be taken?

Will it be a municipal operation or will the Town in corporation with the neighboring Towns contract for the services?

HIGHWAYS. The Mason Road was reconstructed from Farmington Falls to the New Sharon Town Line. The road from Bailey Hill Road to the residence of Lawrence Cook was rebuilt. Town Road Improvement Funds provided by the State Highway Commission were used for both projects. Local funds were used to reconstruct the Savage Road to the Industry Town Line. In continuing the present policy of tarring, following the year of construction, two of these three roads will be included in the 1972 programs.

The voters have continually supported appropriations to provide up-to-date equipment for the Highway Department. Following is a list of equipment:

- 1967 Chevrolet 6 yard dump with plow and wing
- 1968 Chevrolet 6 yard dump with plow and wing
- 1970 Chevrolet 6 yard dump with plow and wing
- 1971 Ford 6 yard dump with plow and wing
- 1968 Chevrolet ½ ton pickup
- 1970 Chevrolet ¾ ton 4 x 4 pickup with plow
- 1945 Oskosh with V-plow and double wing
- 1965 Case crawler tractor
- 1969 John Deere 2 wheel drive loader
- 1970 John Deere 4 wheel drive loader
- 1968 Bombardier Sidewalk plow
- 1965 Austin-Weston grader
- 1952 G.M.C. 6 x 6 truck

PROPERTY EQUALIZATION. The project, including hearings, was completed on July 27, 1971. The assessment record was made up and commitment to the Tax Collector was made on September 29th.

A petition was presented to the Selectmen to have a special Town Meeting to use former values instead of those established by the United Appraisal Company. A well attended Town Meeting voted by a margin of 3 to 1 to use the new values.

AMBULANCE SERVICE. The Town contracted with the Hospital for a term of three years for the Hospital to provide ambulance service. At the end of the year the Hospital has indicated that they wish to terminate the contract.

GENERAL TREE CARE. The Town started a tree replacement program by setting out 20 Sugar Maples. The State subsidized the program in the amount of \$300.00. Plans are to plant 40 trees in 1972.

FINANCIAL. The unappropriated surplus totaled \$59,063.32, a decrease of \$28,878.30 from a year ago. Tax Collections totaled \$943,447.00 or 92.2% of the commitment, which is 3.4% less than a year ago.

Payment was made on the Loader and Revaluation notes as per vote of the Town, leaving a balance due of \$22,816.00. The State Aid Construction note was paid in full. Tax anticipation loans totaled \$599,000.00 of which \$30,000.00 remained unpaid at the end of the year. Cash receipts totaled \$1,833,619.48 less Warrants of \$1,817,793.63 leaving a cash balance of \$15,825.85 on December 31st.

Respectfully Submitted,

HAROLD L. BEAN
Town Manager

Cutler Memorial Library

Report of the Cutler Memorial Library

To the Inhabitants of the Town of Farmington:

The Trustees of the Farmington Public Library Association are most grateful to the voters of the town for the \$9,500 appropriated last year for the Cutler Memorial Library. We are submitting herewith our annual report and trust it will meet with your approval.

Our book circulation showed a slight increase over last year —nearly 20,000 compared with about 19,000 in 1970. The evening hours are proving popular — almost 3,000 books were circulated during that period. Library hours remained the same as the previous year: Tuesday through Saturday, 2:00 - 5:00 p.m., and from 6:30 - 8:00 p.m.; Wednesday morning, 9:00 - 12:00.

The Friends of the Library, under the chairmanship of Mrs. Einar Olsen, continue their helpful work in serving the library. About 100 books were repaired, magazines were kept in order,

and eight exhibits were arranged in the rotunda room — three of which were assembled by young people. In March, Brian Chakoumakos and Erno Downes, both mineral enthusiasts, set up a display of some of their best specimens. The following month, members of Farmington's various Girl Scout troops arranged a grouping of items made in Scouting. Christine Kozlowski prepared an exhibit of her favorite dolls, which she has been collecting since she was four years old. Ben Stinchfield kindly exhibited a fine representative selection of Sawyer prints from his extensive collection. Mementoes gathered from her trips abroad in the 1880's, and given to the library by Mrs. Belle Gilman, made up another exhibit, as did a collection of nature books dating from 1820, and another of children's volumes going back to 1794. One of the most timely displays was done by Mrs. Carol Bowne on the conservation problem.

The most important program sponsored by the Friends was the story-telling held at the library from March through May. These sessions were made possible through the joint participation of Associate Professor Helen Gordon, UMF, her students in the literature in the Elementary Schools course and Mrs. Ross Fearon of the Friends. Story-telling proved most popular with the children, and many times attendance was so great that some of the group had to hold their meeting in the basement due to the overcrowding of the Children's Room. During Book Week about 450 children visited the library.

A new service is now being provided by the Friends. Any shut-in, desiring books, can call the library, 778-4312, and state his wishes. The librarian will contact a Friend who will deliver the books chosen by the librarian.

The library was the recipient of a \$50.00 gift from John D. Robinson. Several books were presented to the library. Among the donors were Clifford N. Oliver, Mrs. Dorothy McGraw Bogue, Edward J. Miller, Miss Peggy Titcomb, Mt. Blue Area Garden Club. The "American Scholar," a quarterly magazine, is given to the library by Mrs. Parker Norton of Kingfield. Colonial Daughters Chapter, D.A.R. has provided a gift subscription to the society's magazine.

A bequest of \$2,000 was received from the Clarence S. Crosby estate.

Mrs. Janette Grant, an assistant Librarian died in Feb. this year. She had served the Library faithfully as its Cataloguer for many years. She also worked at the desk during the evening hours, and she will be greatly missed by all those many friends who appreciated her helpful services.

Dorothea Hodgkins is employed as part time help.

One death occurred among the incorporators during 1971 — that of Miss Agnes Mantor. Miss Mantor was largely responsible for setting up the shelf-reading program when the Friends group was first organized. She also served on the Book Committee for a time.

In January 1971, four of the library Trustees, Mr. Arthur Ingalls, Mrs. Harry Newman, and Mr. and Mrs. Benjamin Butler attended a book selection meeting in Fairfield, sponsored by the Maine State Library.

The Book Committee, at the Cutler Memorial, meets once a month. Its members welcome suggestions from the townspeople about books they would like the library to purchase. If you have some book you think the library should own, please notify the librarian and the Book Committee will consider your suggestion.

Work has commenced on the "Ethel Withee Pratt Memorial Art Room." This room, which adjoins the present Hodgkins-Wheeler Study Room, is made possible through the generosity of Mrs. Pratt's husband, Dr. Lyde Pratt, and their son, Dr. Loring Pratt, of Fairfield.

As more people will be using the basement rooms, especially when the Pratt room is completed, it became imperative that sufficient exits be provided in case of an emergency. Consequently, a door has been cut through the brick wall between the Pratt room and the stack room. This will allow access from the Pratt and Hodgkins-Wheeler Rooms to both the bulkhead exit and the stairway to the first floor.

The Trustees also hope to restore the small vault in the rotunda as a fireproof room where valuable documents, records, et cetera may be kept.

Besides the improvements already mentioned, the Trustees hope to put slight salary increases into effect again this year. However, they feel they will be able to accomplish these goals with the same appropriation allowed last year: namely \$9,500. Your support will be greatly appreciated.

Arthur D. Ingalls
Chairman, Finance Committee
Farmington Public Library Association

Drs. Lyde and Loring Pratt are donating the Ethel Withee Pratt Room in the basement. The Library is having to stand the expense of cutting through an inside wall and installing a door, for fire protection purposes. While we may not have sufficient income to cover this expense yet, we can draw temporarily upon our trust funds of the Library without having to ask for additional funds from the town.

Report of the Police Department

*To the Town Manager,
Board of Selectmen and Citizens:*

It is my pleasure to submit the report of the Police Department for the year 1971.

The year 1971 was one of the busiest years. We had one of the worst tragedies that Farmington has known in many years with the homicide of a young girl. The police department was plagued with another new fad: the so-called "Bomb Threats". We had five bomb threats. We were able to solve four of the five. These bomb harassments cost the taxpayers hundreds of dollars and the police department many tiring hours searching buildings.

The year 1971 also brought something new to the police department. The Farmington Police Department obtained with the help of the Omnibus Crime Control and Safe Street Act, two police cruisers. I feel that these new cruisers have made a great improvement to the police department. The new cruisers are all newly equipped with the latest police devices. The unit that is mounted on top of each cruiser contains blue lights, two speakers,

New Police cruisers.

Police Department — seated l. to r.: Sheridan S. Smith, Raymond B. Orr, Chief; Douglas Howard, Carroll Sinski. Standing l. to r.: Dennis Pike, Wendall J. Kolreg, Philip Foster, Nolan Wilcox, Harold H. Hemingway, Cyrus Decker, Arthur L. Vanderhoff, Sergeant.

and the sirens. The speakers can be used to transfer the radio calls to the officers when they are outside the vehicle. There is also a P.A. System so the officer in the car can talk to anyone outside the vehicles. One of the biggest complaints before the purchase of the cruisers was that the public never saw a police vehicle. The new cruisers are easily seen and recognized.

The officers have attended several schools for police officers. One officer attended a two-week school in Windham on drugs. The chief attended a supervisory school at the U. of M. in Orono in June. All officers attended a school on the change of the Implied Consent Law. Since November all officers have been attending a First Aid Class once a week. The last of February the new officer, Nolan Wilcox, will attend a Basic Training School. This is required by law now. The legislature passed a bill this past summer requiring all towns and cities to have any new officers attend a basic school within one year after being hired.

I feel at this time I should remind the people of Farmington of the tragedy of the Hand girl and ask again for any information or help that anyone can give. There is still a \$5,000 reward offered for information on the Hand case. I would like to inform the people that the tragedy has not been forgotten by the police.

We are still checking and talking with different people every spare minute we have. Thus far there have been very few leads or

people that have come forward with any information. The state police are still working with us and checking other leads. Between the state police and local police several hundred persons have been questioned trying to find some small lead or information about the Hand case. The State Police have kept one full-time investigator on the Hand case, and they will continue to keep an investigator on the case until all the leads and information are exhausted. The state police have sent men into several states to check out similar homicides. The latest homicide that was checked was in New York. Two Maine detectives went to New York to talk with the subject involved.

If anyone has any information on the Hand girl case I wish he would call the Farmington Police 778-3911 or send the information by letter. If anyone wishes to talk privately about information concerning the Hand case, call and arrangements can be made to meet anywhere he wishes.

I wish to thank the full time officers: Arthur VanDerhoff, Sheridan Smith, Douglas Howard, Sr., Dennis Pike and Nolan Wilcox. I also wish to thank the spare officers: Carroll Sinski, Cyrus Decker, Harold Hemingway, Wendall Kolreg and Phil Foster for their fine cooperation. I extend further thanks to Franklin County Sheriff's Department, the Maine State Police, and all other law enforcing agencies.

Respectfully submitted,
 RAYMOND B. ORR
 Chief of Police

Report of the Fire Chief

Forrest L. Allen, Fire Chief

To the Inhabitants of the Town of Farmington:

The following is the annual report of the Fire Department for the year 1971. We have been relatively busy. We have answered a total of 69 calls. Of these five were out of town calls. There were no major fires.

We have had two schools of instruction conducted by the state. One of these was on the use of ladders and one was on hose and pumps. We feel these schools are very beneficial to us all.

Due to the building increase in town, not only of residential homes but also State buildings connected with the college, we feel that the townspeople should seriously be considering the building of a new fire station. In the near future we will undoubtedly have to have an aerial ladder due to requirements of the state. If we should be required to get an aerial ladder, the present station is not big enough to house it.

Respectfully submitted,
FORREST L. ALLEN

Report of Civil Defense and Public Safety

To the Selectmen and Citizens of Farmington:

In looking back over the year just past, there is a marked contrast to the previous year of 1970. 1971 held no major disasters for us. Although we were alerted several times when Mother Nature was on the rampage, we escaped with only minor damage.

The action in the past year has not been on the operational level, but rather on the hidden plane of administrative detail. Some changes came about during the past year that, while on the surface were not very large, held a great significance. The ball started rolling in May when, at "Maine C. D. Day" in Augusta, it was announced by a representative of the National Director that Civil Defense was to undergo a "re-direction". This redirection to be a greater emphasis on the role of Civil Defense in preparation for and operation during natural disasters.

This was a welcome announcement to Maine Civil Defense and Public Safety. The public Law which brought the Maine organization into being in 1949, charged the department with the responsibility for both nuclear and natural disaster. This dual role however, was not recognized at the Federal level as they were responsible only for defense against a nuclear attack.

Over the years many states, Maine included, have gone their own way in the area of natural disaster preparations without the benefit of Federal assistance in planning and/or funding. This is not to say that we have received no assistance in the past, which of course we have. This help has come from a variety of agencies, however it has been at best uncoordinated. Considering the usual speed of operation of the Federal Government, the final results of this new emphasis still lie somewhere in the future. It is however, a beginning.

GEORGE S. LEWIS, JR.
Director
Farmington C. D. & P. S.

Miss Colleen Taylor, R.N., P.N.A. at monthly pre-school Immunization Clinics.

Report of Franklin Area Nursing Service

The Franklin Area Nursing Service serves the nine towns of School Administrative District No. 9. The following is a summary of the services provided in Farmington.

Three hundred fifteen visits were made to homes in the area. The home visiting program provides for health supervision of infants, referrals and implementation of medical recommendations, communicable disease prevention and follow-up, and general health supervision.

Nine hundred twenty-two infants and pre-school children attended the Immunization Clinic held in the Community Building the second Thursday of each month. Volunteers from the community continue to give support to these clinics.

The school health program has been available in all of the schools for school children. The usual immunization program has been offered along with vision and audiometer testing.

Appreciation is expressed to the different clubs and organizations for their continued support to this program.

Respectfully submitted,
(Mrs.) MARGARET REED, R.N.
Health Nurse

Report of Franklin Area Mental Health

During the year of 1971 Franklin Area Mental Health made several substantial changes in direction. It was recognized that the scope of mental health and counseling needs in the area could not be met by the limited number of personnel employable by the limited funds available from the towns and the matching state funds. High priority was given to soliciting additional federal funds through a variety of programs. Although not everything was successful this did lead to the funding of four new positions in November through the Emergency Employment Act. Now, instead of only one full-time counselor and the part-time services of Dr. Charles W. Eastman, there are two mental health counselors working specifically with children throughout the area and there are two counselors working with adult mental health problems. Also there is now an alcoholism counselor who assists in the rehabilitation of persons with problems with alcohol. Attempts are being made to meet the needs of the area by realistic economic methods. The above personnel will be a step toward obtaining that goal. Emphasis will be placed on planning and coordination expected without added local costs.

Your town is asked to contribute at the rate of \$.50 per person to continue its participation in this service. Again this will provide for considerably more services than was previously available in the area. At this time in order to continue to expand services, however, the Board of Directors has decided that in the near future a fee schedule, based on a sliding scale, according to ability to pay, will be charged for services. This will be in accordance with all other mental health programs in Maine.

In your town last year 16 children and 65 adults were seen for 278 interviews. As stated above, however, federal funds will allow for considerably more services in the coming year as additional staff have already been employed.

Yours truly,
ROBERT W. ADAMS
Executive Director

Members of 1971 Conservation Commission. Left to Right: Walter R. Gooley Jr., Roland B. Cullenberg, Richard B. Day, Bruce H. Plummer, and C. Kevin Mullin.

Farmington Conservation Commission Report

Voters at the July 15, 1971, special town meeting approved the formation of the Farmington Conservation Commission. At a subsequent meeting, the Board of Selectmen appointed the following five Farmington residents to the Commission:

5 year term	C. KEVIN MULLIN
4 year term	WALTER R. GOOLEY, JR.
3 year term	ROLAND CULLENBERG
2 year term	BRUCE PLUMMER
1 year term	RICHARD B. DAY

The first meeting of the Commission resulted in the appointment of the following officers: C. Kevin Mullin, Chairman; Bruce Plummer, Vice Chairman; Walter Gooley, Secretary; Roland Cullenberg, Treasurer. Elected associate members include Mrs. Mary Alice Chakoumakos, Mrs. Dianne Luce and Mr. Donald Robinson.

The Commission meets once a month to discuss various problems. The first meetings were organizational in nature and specific accomplishments to date are few.

The Commission will take over the tree warden duties as of March 13, 1972. The 1972 project will include planting approx-

imately 40 hardwood shade trees on Farmington streets under the state shade tree planting program, which pays 50% of the total cost. Other projects include making aerial maps with overlays showing rivers and streams and other data, and making the Commission known to the public.

The role of the Conservation Commission is to protect the natural resources of the community through conservation, including open space preservation, scenic, aesthetic, flora and fauna preservation and beautification, pollution control of all types, and waste disposal of all types. The Commission can receive bequests of land for recreational or other purposes which will benefit the town in its long range planning program.

The Farmington Swimming Program - 1971

To the Citizens of Farmington

The Farmington Swimming Program had a successful year with approximately 350 children participating in the instruction program. Staff members were Laurie Friberg, Director; Penny Floyd, Assistant Director; Karen Browning and Niel Marion.

The program ran for eight consecutive weeks from July 7 through August 27. Elementary through high school students were included in the program which ranged from basic instruction to Senior Lifesaving. Three applicants received Senior Lifesaving certificates and five received Junior Lifesaving certificates.

Bussing was provided and paid for by the swimming program. Students were picked up at various points in and around Farmington and bussed to and from the area.

Students from surrounding towns were accepted to the program under a tuition basis comparable to the per-student cost paid by Farmington taxpayers.

We look forward to another summer to provide swimming instruction for the children of our area.

REV. ROBERT GALE
Chairman

Report of Auditor

January 18, 1972

Board of Selectmen
Farmington,
Maine

In accordance with Title 30, Section 5253, Maine Revised Statutes Annotated of 1964, as amended, an audit has been conducted of the financial records of the Town of Farmington for the year ended December 31, 1971.

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

In our opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town at December 31, 1971, and the results of its operations for the period indicated.

Respectfully submitted,
R. M. RIDEOUT, JR.
State Auditor

RMRJr:sv

SCOPE OF AUDIT

The system of internal control was reviewed as it pertained to the handling of cash and other matters of financial concern. Count of cash was made and reconciled with current receipts and/or petty cash.

Cash accounts were verified by reconciliation of bank statements furnished by the depository and/or by bank confirmation. Other recorded assets and liabilities were verified on a test basis.

An analysis was made of receipts and deposits as well as disbursements and bank charges. Vouchers, payrolls and canceled checks were examined on a selective basis.

Excise tax collections were checked with copies of receipts retained by the collector. Debt, trust and reserve fund transactions were examined. Insurance and bond coverages were determined.

C O M M E N T S
DEPARTMENTAL OPERATIONS

The fiscal year's operations showed that a net unexpended departmental balance of \$14,183.71 was lapsed to unappropriated surplus, per the following summary:

Departmental Accounts:	
Unexpended Balances	\$ 20,664 34
Overdrafts	6,480 63
Net Unexpended Balance	\$ 14,183 71

The overlay, supplemental taxes and unexpended balances in various other accounts, particularly in the administration, tar treatment, dutch elm and equipment purchase accounts, were the major factors contributing to the net unexpended departmental balance lapsed. The larger overdrafts were in the tax abatement and highway accounts. The records did not indicate that authority had been granted allowing overdrafts in appropriation accounts.

* * *

The following comments pertain to the accompanying financial statements:

ASSETS The general and construction fund cash balances totaled \$15,825.85 and \$225,376.63 respectively at December 31, 1971. The bank balances used in reconciling these amounts were confirmed by the depository. Petty cash was counted.

Investments were comprised principally of a 4.70% treasury bill of \$49,027.78. The remaining investments of \$10.00 is represented by one share of stock #1490 in the Farmington Farmers Union.

Accounts receivable consisted of reimbursable expenditures for services rendered governmental agencies for welfare purposes.

Taxes receivable totaled \$84,389.79 at the year end. Current year uncollected taxes amounted to \$79,530.77 and \$4,859.02 was for delinquent accounts dating from 1963. Other general fund assets included tax liens and tax acquired property amounting to \$8,284.05 and \$1,640.56 respectively.

LIABILITIES, RESERVES AND SURPLUS General fund liabilities of \$30,015.00 included principally a tax anticipation loan of \$30,000.00.

The departmental accounts showed a net unexpended balance of \$22,946.12 carried forward to the ensuing year. The reserve for sewer construction totaled \$274,404.41 at the year end.

The unappropriated surplus amounted to \$59,063.32, a decrease of \$28,878.30 for the year. This change was occasioned principally by transfers to reduce the tax levy and for various departmental operations less the current year operational gain and unappropriated excise tax revenue.

DEBT FUND The debt fund, incorporated in the balance sheet as a separate fund, reflects the outstanding note obligations of \$23,116.00 issued to finance a revaluation program and equipment purchases and bond anticipation notes of \$835,000.00 to finance sewer construction projects.

TRUST AND RESERVE FUNDS Funds held in trust by the town totaled \$42,881.57. The funds are comprised of cemetery perpetual care funds amounting to \$18,290.85, school funds of \$18,590.72 and a library fund of \$6,000.00.

The capital reserve funds, which have been established for designated capital improvement and replacement of equipment purposes, totaled \$40,224.60.

The trust and reserve funds are invested in a certificate of deposit and savings deposits in local banks.

GENERAL

At the annual and special town meetings the voters authorized a transfer from surplus to reduce the current year tax levy as well as transfers from surplus and the use of excise tax revenue to supplement funds raised by taxation for various operating purposes.

Town Warrant

(Including Recommendations of the Budget Committee)

*To: Raymond B. Orr, a Constable of the Town of Farmington in the
County of Franklin and State of Maine, GREETING:*

In the name of the State of Maine, you are hereby required to notify and warn the voters of the Town of Farmington, qualified by law to vote in Town affairs, to assemble in the Community Center Building on Middle Street in said Town on Monday, the thirteenth day of March, 1972 at 9:45 o'clock in the forenoon to act on the following articles, to wit:

Article 1.

Article 24.

To determine, by majority vote, the sense of the voters of the Town of Farmington as to whether the Selectmen should do what is necessary and required by the Corps of Engineers, of the Department of the Army of the United States, under the provisions of Section 205 of the 1948 Flood Control Act, as amended, to provide local flood protection along the Sandy River in Farmington. Such local assurances include:

- (1) Provide without cost to the United States all lands, easements, rights-of-way and utility relocations necessary for project construction.

- (2) Hold and save the United States free from damages due to the construction works.
- (3) Maintain and operate the project after completion without cost to the United States in accordance with regulations prescribed by the Secretary of the Army.
- (4) Assume full responsibility for all project costs in excess of the Federal cost limitation of \$1,000,000. Current project cost is \$245,000.
- (5) Prevent further encroachment which might interfere with proper functions of the project for flood control.

(Not Recommended by Budget Committee)

Article 25.

To authorize the Selectmen to adopt a zoning ordinance with respect to the shoreline areas in accordance with Chap. 535 of the Public Laws of the 105th Legislature, which became effective Sept. 23, 1971 and in which said municipalities are given until June 30, 1973 for such zoning and subdivision control ordinances, as required in said act, and failure on the part of the municipalities to so adopt, the Environmental Improvement Commission and the Maine Land Use Regulation Commission shall create such ordinances as determined by them necessary and will then administer and enforce the same.

(Budget Committee Recommends) *yes*

Article 26.

To see if the Town will vote to accept the sum of \$300.00 from the Estate of John W. Stevens to create a Cemetery Fund, the income to be used for the care of Mary Stevens Cemetery Lot located in the Russell Mills Cemetery.

Notice is hereby given that the Board of Registration of Voters will be in session at the Community Center Building on March 8th and 9th from 1 P.M. to 5 P.M. and 7 P.M. to 9 P.M. for the purpose of revising the list of voters and accepting new registrations. *yes*

Given under our hands at Farmington, Maine this tenth day
of February, A.D. 1972.

RAYMOND J. MAGNO, SR.

WILLIAM N. GOULD

MAURICE A. TAYLOR

LEWIS G. FITCH

ALLISON G. HOAR

Selectmen of Farmington

**Every tree
is a family tree.
So please
help Smokey...**

**KEEP
MAINE GREEN
IN 1972!**

Two years before Howard's graduation, his mother and sister had narrowly escaped another famous disaster. Thrust into a lifeboat, they had been among the few to survive the sinking of the Titanic.

Now the Hippachs' hopes rested largely on their surviving son. Hippach, a wealthy man, planned a wonderful future for the boy, and the prestigious Abbott school fitted nicely into his plans. Later there would be college, then a job with the family firm.

After the graduation ceremony, Howard went home to Chicago. One day he took his automobile, a big powerful runabout, out for a ride. With him on the front seat was his pet dog.

Where they went, what they did, and what happened was never discovered. Howard was found lying dead beneath the overturned car, his faithful dog guarding his body.

The grief-stricken Hippach decided to remember his son with a gift to the Abbott School. Since Howard had been an outstanding athlete, playing on the baseball and football teams and captaining the undefeated basketball five, Hippach and the headmaster settled on an athletic field as the most suitable memorial. Four and a half acres were transformed into two football fields, two baseball diamonds, a track and grandstand, and two tennis courts.

The massive brick-and-granite memorial gate was designed by architect Arthur Woltersdorf. And it was Woltersdorf who chose Richard Bock to do the gate reliefs.

Hippach Field was dedicated in June, 1916, with an impressive ceremony. It reverted to the town of Farmington when the Abbott School closed about 25 years ago.

Time has taken its toll, but the reliefs remain in good condition. Their messages are as pertinent to today's youth as they were when first executed. The relief on the left side of the gate is entitled "Baseball" and reads:

The day is full of calls to action — Prepare
and preserve your strength.

The other, depicting "Football", gives this advice:

Victory is won by manly effort and obedience.

Richard Bock was not present at that dedication in 1916, but certainly his work spoke for him both then and now, not only to the sportsminded but also to those who appreciate fine art of any era.
